Enzo Crivello-Omani

Game Developer · Game Designer · 19 years old

PROFILE

Having grown up with a Wii and Minecraft, I moved from player to developer out of curiosity for what lies behind the experience. Currently in my 3rd year of a Bachelor in Computer Science, Game Development track at Gaming Campus (Lyon), specialising in gameplay mechanics and procedural generation. Looking for an internship to validate my year, then a work-study programme from October 2026.

EXPERIENCE

Game Developer - Internship

Summer 2025 - 2 months

Le HuB e-sport · Valence

- Independent development of a cooperative video game integrated into the bar's special event nights.
- Mechanics focused on chained dashes to bounce off the environment and eliminate monsters.
- Full conception, development and delivery of the project for real-world public use.

Team Member - Student job

Summer 2023 - 2 months

Marie Blachere · Motorway service area, Valence

- First professional experience upon completing secondary school.
- Managing rush periods and high-traffic periods as part of a team.

I.T Support

Septembre 2024

HM-Clause · Portes-les-Valence

- Handling multi-level support tickets (incidents, hardware requests).
- IT equipment maintenance and implementation of backup server cleanup procedures.

IT Department

Juillet 2024

CPAM de la Drome - French Health Insurance · Valence

- Local virtualisation via WSL and Docker for simultaneous application deployment.
- Hardware maintenance (OS, BIOS) and installation of a CentOS7 web server.
