Seeking Work-Study Contract - Game Developer - Game Designer

20 years old - Available immediately - MSc Gaming Campus Lyon

Having grown up with a Wii and Minecraft, moved from player to developer out of curiosity for what lies behind the experience.

Currently in my 1st year of an MSc Game Developer, specialising in Real-Time 3D Rendering & Immersive Technologies, at Gaming Campus (Lyon).

Looking for a work-study contract immediately, as part of this MSc at Gaming Campus (Lyon).

EXPERIENCE

Game Developer Internship Summer 2025 - 2 months

Le HuB e-sport - Valence

- Independently designed and developed a cooperative video game integrated into the venue's event nights.
- Core mechanic: chained dashes to bounce off the environment and defeat enemies.
- Full end-to-end delivery - from concept to live public deployment.

Unity C# Gameplay Systems Solo project

IT Support Sept. 2024

HM-Clause - Portes-lès-Valence

- Handled multi-level support tickets independently and maintained IT equipment.
- Implemented backup server cleanup procedures.

IT Department July 2024

CPAM de la Drôme - Valence

- Local virtualisation using WSL and Docker for simultaneous application deployment.
- Hardware maintenance (OS, BIOS) and installation of a CentOS7 server.
